

**Extremely Important!!**

Here's how to find your CORRECT ring size!

Make sure you print this page at the correct size! Check the size after printing!

If the ruler does not agree *perfectly* with your printed page check your "printing setup" to make sure you un-checked any box in your printer dialog window that says 'page scaling' or "Fit to Page". You want to print the page at 100% with no "fit to page" or any page scaling other than 100%!

**This page needs to be printed ONLY if you already have a ring that fits, but you are not certain of the size.**

If you have already have a ring that's the right size, just carefully place it on one of the circles below .

Place it on top of the circle where the INSIDE of the ring matches the OUTSIDE of the circle. If in doubt, move up a half size.
